3. Internet (Wi-Fi) Packages

INTERNET PACKAGES TERMS & CONDITIONS:

Stay connected throughout your cruise and share every unforgettable moment with your loved ones. MSC Cruises offers a range of Internet Packages tailored to your connection needs and the number of devices you wish to use on board. Internet access on board is provided via advanced satellite technology, ensuring connectivity wherever your cruise takes you. As satellite coverage depends on external factors, occasional variations in speed or service may occur.

1. Service availability

Internet access on board is provided via satellite communication. Connection speed and stability may vary depending on weather conditions, ship position, and network congestion. Performance may also fluctuate during peak periods, such as early morning or after shore excursions. While every effort is made to maintain stable connectivity, MSC Cruises cannot guarantee uninterrupted service.

2. Coverage

Wi-Fi is available in all public areas and most cabins, including MSC Yacht Club suites. Temporary interruptions may occur while the ship is maneuvering near ports or sailing through areas with limited satellite visibility.

3. Packages and usage

MSC Cruises offers two packages: Browse and Browse & Stream, both with unlimited data under MSC's Fair Use Policy, designed to ensure a smooth and enjoyable experience for all guests. Packages can be purchased for the full cruise or per day, for 1, 2, 3, or 4 devices. Each package is personal and non-transferable.

4. Device management

Once a device is connected and activated with any Internet Package, it cannot be switched to another device. Multi-device plans allow simultaneous use on the selected devices only; switching between devices is not possible.

5. Activation and login

Internet Packages can be purchased or activated by connecting to the ship's Wi-Fi network and visiting www.mscwifi.com, or directly through the MSC for Me App. Login is completed using your cabin number and month/year of birth as credentials.

6. Upgrade policy

Guests may upgrade from Browse to Browse & Stream or increase the number of connected devices by paying only the difference between the packages. Downgrades are not possible once activated. Prepaid upgrades maintain their discounted rate.

7. Fair use policy

To ensure a smooth experience for all guests, automatic updates, large downloads, and background data usage may be limited. Unreasonable or excessive use of bandwidth that impacts the experience of other guests may also be restricted.

8. App compatibility and restrictions

Certain applications—particularly VPNs, P2P services, and region-restricted streaming platforms—may not function properly due to satellite configuration and proxy settings. Please note that MSC Cruises cannot guarantee the performance of third-party applications.

9. Device and network settings

Some devices may require adjustments to local settings, such as disabling Private MAC Address or setting the IP type to DHCP. Company-issued devices with firewalls or parental control software may prevent connection.

10. Pricing and value

Satellite internet requires significant infrastructure and operational investment. Prices reflect the cost of maintaining a global maritime network. Prepaid packages purchased before the cruise offer lower rates than onboard prices.

11. Responsibility and refund policy

Internet performance depends on satellite conditions and external factors. MSC Cruises cannot guarantee uninterrupted service. Once activated, all packages are final and non-refundable. MSC Cruises is not liable for any indirect or consequential loss arising from temporary service interruptions.

12. Assistance

Our friendly Digital Experts, available at The HUB, Photo Gallery, or any Info Point on board, are happy to assist with activation, troubleshooting, and upgrades.

13. 24-Hour Access Option

Guests may purchase a 24-hour pass for one device, available directly onboard through www.mscwifi.com or the MSC for Me App.
